

GLOBAL^{HD}

Introducing the New Global 1080 HD Camera

The first HDMI Direct-to-Monitor Video Camera in the Market
High-Quality Imaging in an Ultra Compact Design

Introducing the New **GLOBAL^{HD}**

Microscopy has never looked so defined.

See the difference with the Global 1080 HD!

- **Designed with the Microscope in Mind:**

The new HD live stream camera has been optimized specifically for use with the Global Microscope

- **Compact and HDMI Direct:**

The smallest HD Camera in the market that runs HDMI direct-to-monitor for fast and easy HD videos

- **20 Inches or 20 Feet, it Does Not Matter:**

The HD camera displays a sharp image no matter the size of the display
